Die Trying, Words That Kill

My world's on fire
My life's overwhelming
Just breathe
You're on the next train to life without me
Time had nothing left to show so we found out
A world on fire
A life overwhelming

Do you blieve in the words you said to me
As you take away everything?

I can't believe what you're saying
So don't tell me
The words that kill, the words that kill
You're leaving

I spend my time thinking about you
Remember when we said that this would not end?
But now you're gone
I'm still right here without you
A world on fire
A life overwhelming
Just breathe

Do you believe the words you said to me
As you take away everything?

I can't believe what you're saying
So don't tell me
The words that kill, the words that kill
You're leaving

So take back what you said
This would never end
The words that kill, the words that kill
You're leaving

I can't believe what you're saying
So don't tell me the words that kill
The words that kill

I can't believe what you're saying
So don't tell me
The words that kill, the words that kill
You're leaving

So take back what you said
This would never end
The words that kill, the words that kill
You're leaving
