

Diego, A Dream With Almost Erotic Content

don't know where she's been never felt so near
sun s leaving traces in her mind

air is freezing in her lungs as she's breathing all these words
were stuck inside her throat for quite a while

he's got a plan and he wants you to take a part in it
don't let it go to waste
a different kind of taste a new chance to shatter innocence
to help it all make sense

write a letter for her friends they won't understand
though it helps to give you peace of mind
now it seems to her quite clear that once it disappears
you won't regret the things you left behind

all these places in her dreams she's not sure yet what she feels
but I never thought it ever go that far

he's got a plan and he wants you to take a part in it
don't let it go to waste
sounds like a dream to me a dream that she has never seen
no other can replace
