## Dies Irae, The Oceans Of Filth

in a moral embrace
the giants are met,
fighting for dominion
I am the jugde and the end
and death I became,
destruction of all the worlds
when the time is ripe
I shall spit out
the plague from my guts

I am the day that passed the eternal frost of your soul

the final cry of the fading life shall the universe bear for all times into the black void's infinity to be the warning for other deities

I am the day that passed future is my mother and dusk is my father I am the eternal frost of your soul

united with chaos all-knowing and ruthless I am the judge and the end the destruction of the worlds

I am the day that passed the eternal frost of your soul

the oceans of filth shall dim the glow of all the suns
