

Diesel Boy, Drink It Down

Hola Senor
Please pour me one more
I can still feel my fingers
I've only stumbled in
For a tonic and gin
And some hurt in the morning
So turn me up and deal me in
Before I am a has-been
Raise up your glass
Throw another back
Let's drink to me
Cuz I am the king of would be
I work my hands rough
But its never enough
This world will soon break me
Forever held down
So they gave me the crown
Obscurity here I come
Just one more song for one more dance
This may be my last chance
Rescue me from this catastrophe
Fill me up and grant me salvation
One last salute to celebrate us all
A final shot of that alcohol
Drink it down
