

# Diesel Boy, Happy Street

I think I'll go for a walk outside  
The sun is out it's a beautiful day  
I love to feel the wind in my hair  
And the sun on my face  
Cheap thrills come easy these days  
At least that's what I'm told  
Well it sure beats watching TV  
And just sitting around growing old  
Can't help but smile  
When I'm on happy street  
Big rows of houses and concrete  
Maybe you care  
Maybe you don't

Just don't think too much  
I think I'll go outside for a walk  
It's a nice day, the sun is shining  
The birds chirp and the grass grows green  
The clouds above me have a silver lining  
I think I'll take a nap  
Underneath my favorite tree  
Sometimes it's the simple things  
In life that makes me happy  
I think I'll sleep here all day  
Until the sun goes down tonight  
So if you pass me on the street  
Don't wake me up, I'm alright  
I wonder if someone's out there

Somewhere shares with me today  
The joys of happy street  
And feeling like a king
