

Diffuser, Loser Of The Year

Tell the kids today, I'm not afraid
I got a hand full of dust
And a mouth full of pain

Want out...
We all want out (2x)

Made some bad mistakes
Those are the breaks
I got a patriot high
With some symbolic quakes
Can't see the sun spots, through the domestic haze
Can't hide the makeup, cause you never can see, never can breathe

Want out...
We all want out (2x)

Replace the name on your designer jeans with a flame
Income taxes for the youth
Intellect is all we know
And I believe this time that it's an uphill climb
You have to hold on tight
The weight's too heavy now

Want out...
We all want out (2x)
