## Diffuser, Loser Of The Year

Tell the kids today, I'm not afraid I got a hand full of dust And a mouth full of pain

Want out... We all want out (2x)

Made some bad mistakes
Those are the breaks
I got a patriot high
With some symbolic quakes
Can't see the sun spots, through the domestic haze
Can't hide the makeup, cause you never can see, never can breathe

Want out... We all want out (2x)

Replace the name on your designer jeans with a flame Income taxes for the youth Intellect is all we know And I believe this time that it's an uphill climb You have to hold on tight The weight's too heavy now

Want out... We all want out (2x)
