Makin' them scream that "It's comin' home" and that (And that)

'Cause I'm so fuckin' off my nut, I might just lack
I don't shoot no wap, beer bottles get smashed

You don't wanna party with ArrDee, none of 'em hack it (None)
It's litty for really, it's silly, if you got a drink and I see it, I'll back it (Back)
Necking it off just like the gyal in my bed that I've got
Tun up with tugs and geezers', the lot
My own family think I've lost the plot, I don't give a toss
Leave the girl breathing heavy, easy, steady (It's bait)
I don't know about stayin' out late, 'cause I party 'til the sunrise
This boy, have the cab man screaming (Woi, woi, woi)
It's litty for really, a whole bag of noise
The vibes in the room but Digga's too loose
Heard man say

If you try to run, I'm kweffing you, I-I shoot my gun
I ain't cheffing you, I shoot, I-I shoot my gun
