

Digimon, Change Into Power

Oh yeah,

Change into power,
we got the power,
we got the strike within,
we always fight to win an',
Change into power,
we got the power,
together you and me,
will win the victory,

When I need someone to guide me,
To stand right beside me,
I know who to choose.
And if we stick together,
from now and forever,
there's no way to lose.

Change into power,
we got the power,
we got the strike within,
we always fight to win an',
Change into power,
we got the power,
together you and me,
will win the victory,

To all the boys and the girls,
in the digital world,
from near or far,
We'll be your ultimate friends,
and into the end,
wherever you are,

Change into power,
we got the power,
we got the strike within,
we always fight to win an',
Change into power,
we got the power,
together you and me,
will win the victory,

Digimon we fight to win,
we fight to win,
Digimon we fight to win,
we fight to win,
Digimon we fight to win,
we fight to win,

Change into power,
we got the power,
we got the strike within,
we always fight to win an',
Change into power,
we got the power,
together you and me,
will win the victory,

Change into power,
we got the power,
we got the strike within,
we always fight to win an',
Change into power,

we got the power,
together you and me,
will win the victory!
