# Digimon, Fluttering

Your wounded wings
Will make a miracle
And you'll fly again
Riding the wind of dreams
Cross the shining rainbow
As your journey continues

Look up at the sky, come on!
Break down that unknown door!

To the future in the sky
I believed
In my heart! It's my soul
I can go forever
Lead the way! In the sky
Bring everyone
I believed! It's my soul
Fluttering in the sky

Non-stop passion
Amidst the countless stars
The shining grows
In so many ages
We met again and again
As if calling to each other

Your power's unlimited!
I'll come to see you wherever you are

To the future in the sky
I believed
In my heart! It's my soul
Let's make our dreams come true
Lead the way! In the sky
I believed
In an endless dream! It's my soul
Flutter high in the sky

Nana nana...
Honest wings that no one can dirty
Nana nana...
To an endless journey

Look up at the sky, come on!
Break down that unknown door!

To the future in the sky
I believed
In my heart! It's my soul
I can go forever
Lead the way! In the sky
Bring everyone
I believed! It's my soul
Fluttering in the sky
Lead the way! In the sky
I believed
In an endless dream! It's my soul
Flutter high in the sky
