

Digimon, Moving On! (English)

I quietly put my things in my bag
With a treasure map in my hand, I fly out into the street
When we meet in our secret base
Let's all get in a circle and make a plan

Surely none of us
Knows what will come tomorrow, but
It sure is fun!

Moving on!
An adventure that will make our whole bodies
Heat up, overflowing with feelings
Look! Moving on!
Is waiting for us
We've got to get going soon
Clutching our precious dreams, we'll set out on a journey
We're adventurers

If we've got the compass pointed the right direction
Let's decide our destination, keep it a secret from the adults

That's right, none of us
Understands anything difficult, but
That's all right, too!

Moving on!
Because there's an adventure
That will make smiles overflow
Look! Moving on!
Spontaneously from our hearts
Surely we won't be able to stop
The sun is always our friend
Everyone's an adventurer

Moving on!
An adventure that will make our whole bodies
Heat up, overflowing with feelings
Look! Moving on!
Is waiting for us
We've got to get going soon
Clutching our precious dreams, we'll set out on a journey
We're adventurers
