

# Dilana, I Wish You Luck

I wish you luck  
I hope you get what you deserve  
I wish you luck  
I hope you catch before the curve  
I wish you luck  
I hope you make it to the end  
I wish you luck  
I hope you rot with the rest of them  
'cos you deceived me please believe me when i say  
This aint a threat this is your life  
Yea, yea, yea, yea!!  
I wish you luck  
I, i, i wish you luck  
I wish you luck  
With your so called life and your loser friends  
I wish you luck, yea  
When they put a rope round your little neck  
'cos you deceived me oh please believe me when i say  
This aint no joke this is real life  
I don't need no gun i ain't got no enemies  
I got a lotta milage on my soul  
It's called street credibility  
Incase you wondered what's become of me, yea  
If you wanna see my face  
Watch mtv  
Yea! you conceived me but you had to leave me all  
alone  
Without love without a home
