

# Dilana, When You're Around

I got a call from you this morning why you still keep hangin' round  
Babe I miss you and I need you and it kinda gets me down  
It ain't the word love that fulfilled me was it really from the heart  
When you're around, you're around it's easy to go blind  
When you're around you're around I've got nothin' on my mind  
When you're around, you're around yea we speak without a sound  
When you're around  
Where are you when I need you I'm almost on the ground  
I ain't strong enough without you you never read between the lines  
I'm almost on my own now I'm so lonely I could die  
There's no one in this world I'd trade you for  
Why do you throw it all away yea  
I'd be the only flower in the desert you'd take care of oh yea  
I'm almost on my own now do I have to spell it out
