

# Dilba, Raindrops

Dilba

I imagine us in a love without pain  
We gently move like the clouds  
It's a fantasy, a state of mind  
to make it happen  
A world inside a hidden garden  
To run and hide in, in times of need  
And if you know me,  
that's where I'll be  
Walking on the rainbow  
The sun is out to play  
Meet me far from shadows  
In this peaceful place  
Peaceful place  
Sometimes when real life  
won't bring me peace  
It makes it hard to breathe  
I turn so cold  
So when it's hard to see  
I close my eyes and dream away  
I let the angels take me up to the sky  
Free from burden I fly  
With that smile on my lips  
There is nothing but love to give  
meet me...
