

# Dilba, That's Life

We talk too much, got nothing really smart to say  
I think a lot, but thoughts no longer make my day.  
Where I sometimes, I love you baby when you play  
and hurt sometimes and wait for it to go  
to go away!

chorus:

That`s lalalala life, that`s lalalala like hole in the sky!  
lalalalala waist of time, if you lalalalalala lost the fight  
why lalalalala waist your time, with me  
From now, now on, what`s right is wrong and that`s ok  
for me and you, I`m happy if you stay all day  
we laugh a lot and kiss until we fall asleep  
and then wake up and let the morning  
be there and stay!

chorus

I feel, if that is what you want, now keep your ring, house and the car  
if this is it then it`s a lie, cause love is here for all I know  
In my life!

chorus \* 2

...with me, with me
