## Dimension F3H, Reaping The World Winds

Now enter, be welcomed I cherish your presence. Come join the masquerade. Supersonic waves of ectasy For I reap the world winds. I shall inflict you pain. I reap the world winds. Come forth I call you now

I am a dragon, hidden behind a lion. I am the shadow, kissing your flesh with whips and chains

Now listen ye all depraved. Slaves of sin and lust. Come feel the comfort Of Fraulein Helga's house of horrors. For I reap the world winds. I shall inflict you pain. I reap the world winds. Come forth I call you now

I am a dragon, hidden behind a lion. I am the shadow, kissing your flesh with whips and chains

Come ecstasy... Take my hand You'll forever be with me... I am the dragon, I am the lion, I am the shadow, cold like iron I summon thee, my winds The gathering of storms Upon me... I am the harvester of pain.

I am a dragon, hidden behind a lion I am the shadow, kissing your flesh with whips and chains

So enter, be welcomed I cherish your presence Come join the masquerad. Supersonic waves of ectasy For I reap the world winds. I shall inflict you pain. I reap the world winds. Come forth I call you now

I am a dragon, hidden behind a lion. I am a tiger, crouching behind a gentle smile...
