

Dimension Of Doomed, She Loved Agony Of Sha

Under the brightest star
I'd like to feel
How you loved the agony of shadows
While enduring the eternal yoke of ominous future
Into your flesh the seed of sin penetrates - the future
I'd like to give immortal love to you
I'd like to feel pain
Finding great pleasure in my flesh writhing in agony
Into her heart the seed of sin penetrates - the future

Destructive death
I'd like to feel
How you loved the agony of shadows
I'm a tear in your empty eyes
I'm that seed of our sin
I'll give you the kingdom of the tortured shadows
You'll return love to me
Finding great pleasure in worshiping the death
Of tortured souls
Feelings of death torment

Cross over all the seven deadly sins
I'm possessed to fever
I'm doomed to suffer for eternity
Be alone with my own fears

Madness captures my soul on the way to nirvana
The signs are shining on the pages
Of my reminiscences
Colden letters will mark out the god's thoughts at dawn
The shadows of god's whores
The seraphs of tragic loves
