Dina Carroll, Good To Me

Mmm... Good to me...

I've never known a love like this I just can hardly believe it And I love giving you my everything You give me more than I needed

And thinking of the good times Precious times that were yours and mine That's why I can't wait to see your face Baby, when I tell you goodbye

'Cos it's a damn shame
You know you should have been good to me
You could have had everything
You know you should have been good to me
(You should have been good to me
Good to me)

The first time that I saw you, boy You looked so good to me You were my fantasy Now when I remember those days I see your wandering eyes And the same old lies

Thought our love was heaven sent But even an angel could not prevent What these tears represent Is I'm so tired of paying for your rent

'Cos it's a damn shame
You know you should have been good to me
You could have had everything
You know you should have been good to me
(You should have been good to me
Good to me)

Should have been good to me Should have been sweet to me now...
