

Dina Carroll, I Had A Dream

Dreaming.....

Only you, only me
In a room with the crowd
Only they could not see
You undressed me
With those eyes
They revealed
It's a matter of time

Here in my mind
I could feel you kiss me
I closed my eyes
And you appeared

I had a dream
That we had made it in love
Oh what can I need
That I can't get enough
I had a dream
That you were giving to me
The kind of love that I need

I had a dream
That we had made it in love
Oh what can I need
That I can't get enough
I had a dream
That you were giving to me
The kind of love that I need

I see you, you see me
We believe in a world
Only lovers can see
How you hold me
With your charms
So surreal
When I'm there in your arms

You on my mind
Got to feel you near me tonight
In my mind you reappear

I had a dream
That we had made it in love
Oh what can I need
That I can't get enough
I had a dream
That you were giving to me
The kind of love that I need

Dreaming
Dreaming now you're loving me

Here in my mind
I could feel you kiss me
And I, I closed my eyes
And you appeared

I had a dream
That we had made it in love
Oh what can I need
That I can't get enough
I had a dream

That you were giving to me
The kind of love that I need
