

# Dina Carroll, Love Will Always Bring You Back To

Feels like a lifetime away  
When I heard you say  
I love you  
And it doesn't feel quite the same  
Going through the day  
Without your loving arms to ease the pain  
I would surely go insane  
But I know we're gonna be with love again

Though you may be far away  
And I have is yesterday  
I can't stop the world from turning  
Only you can stop the hurting  
Though you may be far away  
Time and space will not erase  
The look of pain upon your face  
Said everything you could not say  
I know as sure as I breathe  
Love will always bring you back to me

If I had to fall in love again  
I wouldn't hesitate  
If it was with you  
But love's story had to go and change  
One thing remains  
I will never be in love this way again  
You know my heart's with you  
Even when I can't be next to you

Though you may be far away  
And I have is yesterday  
I can't stop the world from turning  
Only you can stop the hurting  
Though you may be far away  
Time and space will not erase  
The look of pain upon your face  
Said everything you could not say  
I know as sure as I breathe  
Love will always bring you back to me

I knew life would never be the same  
Though my nights are long  
I keep holding on  
Sometimes I feel just like a child again  
When I've lost control  
Yet I know  
That as sure as I breathe  
Love will always bring you back to me

Though you may be far away  
And I have is yesterday  
I can't stop the world from turning  
Only you can stop the hurting  
Though you may be far away  
Time and space will not erase  
The look of pain upon your face  
Said everything you could not say  
I know as sure as I breathe  
Love will always bring you back to me
