Dina Carroll, Straight To My Soul

I didn't make it easy, I know
Never let your heart get too close
Always putting something in between
Something in between me and my dreams

You found your way
Straight to my soul
Took the emptiness
And made me feel whole
You gave my heart
More than it can hold
Now every word you say goes
Straight to my soul
Straight to my soul

I used to be afraid to reveal
All the secret things I would feel
But, baby, you're restoring my trust
How can I not believe in what's happening to us

You found your way
Straight to my soul
Took the emptiness
And made me feel whole
You gave my heart
More than it can hold
Now every word you say goes
Straight to my soul
Straight to my soul

How can I resist
Such love and tenderness
All I want to do is find a way
To give it back to you

You found your way
Straight to my soul
Took the emptiness
And made me feel whole
You gave my heart
More than it can hold
Now every word you say goes
Straight to my soul
Straight to my soul
