

Dinosaur Jr., It's Me

I know the only way
You said it's not me
I know the only way
You said it can't be
I thought I knew the way
I thought I knew the way

To find a way
The only way it's me
You rise and lost unusual way, you'll see
To find a way
The only thing to me
It's gonna hurt
And by the way it's me

I know the only way
You said it's not me
I know the only way
You said it can't be
I thought I knew the way
I thought I knew the way

To find the way
The only way it's me
You rise and lost the usual way, you'll see
To find a way
The only thing to me
It's gonna hurt
And by the way, it's me.

I know why, I know why
If I can find will you believe
And if I, and if I
If I can't let you hold by me
Me

I know why, I know why
If I can find, will you believe
and if I, and if I
If I can let you hold by me
Me

To find a way
The only way it's me
To rise and lost the usual way, you'll see
To find a way
The only thing to me
It's gonna hurt
And by the way, it's me.

It's me
It's me
