

Dinosaur Jr., The Wagon

There's a way I feel right now
Wish you'd help me, don't know how
We're all nuts so who helps who
Some help when no one's got a clue

Baby, why don't we?
Baby, why don't we?

There's a place I'd like to go
When you get there then I'll know
There's a place I know you've been
Here's a wagon, get on it

Baby, why don't we?
Baby, why don't we?
Baby, why don't we?
Baby, why don't we? Why don't we?

You won't see me, You won't see me
There you are and here I stand
Tryin' to make you feel my hand
You won't see me, You won't see me
I ring the doorbell in your mind
But it's locked from the outside
You won't see me, You won't see me
You don't live there anyway
But I knock on it all day
You won't see me, You won't see me

There's a place I go,
But you're not there,
And I'm supposed to know
How to get to where
You're gonna be
But you don't even know
So I'm flakin'
While you're shakin' it
With every stone you fly
Without a mind, without a spine
What is it that you wanna find

[Solo]

There's a place I go,
But you're not there,
And I'm supposed to know
How to get to where
You're gonna be
But you don't even know
So I'm flalin'
While you're sailin' off
Without a course in mind
Without a mind, without a dock
What is it that you wanna find

There's a place I'd like to go
When you get there then I'll know
There's a place I know you've been
Here's a wagon, get on it

Baby, why don't we?
Baby, why don't we? Why don't we?

You won't see me, You won't see me

There you are and here I stand
Tryin' to make you feel my hand
You won't see me, You won't see me
I ring the doorbell in your mind
But it's locked from the outside
You won't see me, You won't see me
You don't live there anyway
But I knock on it all day
You won't see me, You won't see me
