

Dinosaur Jr., We're Not Alone

I've been lying softly, glued to the ground
I don't need to listen, I just need the sound
piece it all together, let me out
When it's almost over there's a doubt to get through
I wanted you to say
'be around'

I wanted you to say
'be around'

keep an eye on my eye
keep me straight
keep an eye on every move I make or think of
keep the past out of my weathered head
keep me guessing, keep me
keep me and I'll help

I wanted you to say
'be around'
like you are now

If you say 'we're not alone
