

# Dio, Big Sister

Who controls your mind

There have been changes  
No more giving it all for free  
There will be changes  
Now woman is all you need  
A-ah

Here is a number  
You've been given an another name  
We will be watching  
One might fall but you'll all be blamed  
Shame, shame

Here's big sister  
We're big sister  
Hear big sister  
There's big sister  
Dancing on your grave

Who controls your mind  
Who's in charge of hearts  
Who controls you time  
We're in charge of you

There have been changes  
Even mother's a soldier now  
There have been changes  
You can touch 'cause you don't know how  
No

Here's big sister  
We're big sister  
Hear big sister  
There's big sister  
Dancing on your grave

Pretty faces, young and clean  
Watching you from magazines  
All they want is something more  
Kill the king and then we'll crown the whore

Here's big sister  
We're big sister  
Hear big sister  
There's big sister

Who controls your mind  
In charge of hearts  
Controls your time  
In charge of you

Here's big sister  
We're big sister  
Control
