

# Dio, Fallen Angels

Screaming out alone in the night  
Just a time and place  
But it's real all right

We are diamonds that shine without fire  
We're climbing the stairs  
Going down and never higher

Fallen Angels  
Going down

Something came to me in a dream  
The crack of a gun and a bloody scream  
The I could see the faces and why  
I was holding the gun  
And the world began to die

It's a criminal world  
And we all get to play  
You're a criminal  
Sins of the children  
Never get washed away

We're Fallen Angels  
Goin' down  
Fallen Angels  
Come gather round

Screaming out alone in the night  
Just a time and place  
But it's real all right

We are diamonds that shine without fire  
We are climbing the stairs  
Going down and never higher

We're Fallen Angels  
Fallen Angels  
Fallen Angels
