

# Dio, Institutional Man

Inside the walls I've made  
To keep out all who reach for me  
I might have lost my way  
And I can't come out again

Don't come around here anymore  
You may infect yourself  
Don't ever cross this line  
You could see monsters in your mind  
There just like me

Have I erased all sense of touch  
I don't feel anything  
Sometimes they say I need  
Sometimes I think I need  
Sometimes I know I need  
New parts for my brain

Most dreams, they're black and white  
But I must color mine  
Each day's another end  
Less night of screaming  
Shouting at the outside  
Someone let me in

Set me free now no-one can  
Faces at the window  
Stop the water, bags of sand  
Institutional man

Sometimes they say I need  
Sometimes I think I need  
Sometimes I know I need  
New parts for my brain

Set me free now no-one can  
Faces at the window  
Lock the cages, tie my hands  
Institutional, institutional man
