

Dio, Like The Beat Of A Heart

Tonight we run
We can hide in the dark
When the moon steals the light from the dying sun

Oh run
It's a better thing than we have ever done

There's a beast that lives inside you
And it's screaming to get out

Like the beat of a heart

Don't look behind
Cause a tear that never dries
Can only make you blind

You've got to try
Cause the future's never never gonna die

There's a beast that lives inside you
And it's screaming to get out
It's a storm that's never ending
It's a truth without a doubt

Tonight we run
We can hide in the dark
Till the moon steals the light from the sun

There's a beast that lives inside you
And it's screaming let me out
It's a storm that's never ending
It's a truth without a doubt
Love can be a whisper
But pain will always
Shout to you

Like the beat of a heart
Like the beat of a heart
Like the beat of a heart
Like the beat of a heart
