

Dio, Night People

Do you like the dark
Do you like the way it moves
Do you come alive when neon
Kills the sun

Are you hypnotized
Part of the illusion
Oh, see how they run

It's the mystery
Poetry and passion
Innocence and fashion
Revolution
Evolution ways

Night people

Are you satisfied
With the lessons that you're learning
Is the fire really burning
Do you know

Hey dream child
Promises are spoken
And promises are broken
Electric eyes that never let you
See them in the day

Night people
Night people

Do you like the dark
Do you like the way it moves
Do you come alive when neon
Kills the sunshine

Are you hypnotized
Innocence and fashion
Promises and passion
Evolution
Revolution ways
And everybody stays

Night people
Night people, yeah!

Do you like the dark
Do you like the way it moves
Are you hypnotized
Paralyzed
Revolution
Hey dream child
You got electric eyes
Hey dream child!
