

# Dir En Grey, Rotting Root

FATE

Into the night  
Honey open up your mouth

FATE

Into the night  
Honey spread your wings  
Into the night

Fuckin' tricky men

Mother

I may be tainted  
but I can't forgive them  
ever...

I'll rip away the wings of the blind  
Will no longer demand

Mother

Fuckin' tricky men

Fate

I may be tainted  
but I can't forgive them  
ever...
