

# Discharge, Decontrol

The fill you up with their fucking lies  
You're the victims of government schemes  
They take liberties they've no right to take  
And you're led to believe they're oh so right  
They only show concern when war is declared  
Cause you're their power and glory  
This whole affair is so fucking unfair  
It's so fucking sick  
Decontrol, decontrol  
We've been shit on far too long

And children?  
And children.
