

Discharge, War's No Fairytale

Government and queen are your only enemies

Dont be fooled by their plastic smiles

War's no fairytale,

guns and bombs aren't f**king toys

They don't wanna know your views of war

They never stop to think about you

War's no fairytale,

guns and bombs aren't f**king toys

They want you kept in the darkness of the realities of war

War's no fairytale,

guns and bombs aren't f**king toys

Meat flung yards apart from bodies

Are typical sights of war

War's no fairytale,

guns and bombs aren't f**king toys
