

Disco Ensemble, See If I Care

I forgot to call
The matches need to dry
We need batteries for flashlights
We're waiting by the phone
Sharpening the knives
Make sure you lit the fuse right

Don't wait up, don't waste your time
Don't hold up on a dead phone line
Just make sure you lit the fuse right

Blow up the world
See if I care
Leave us to burn
See if I care
Blow up the world, leave us to burn
Make it a mess, I couldn't care less
Blow up the world
See if I care

I forgot to say
The world might end today
We can go and kick the streetlights
I'm all out of faith
A reason to sleep late
Make sure you lit the fuse right

Don't wait up, don't waste your breath
Don't make up, there's no time left
Just make sure you lit the fuse right

Don't waste the wine
When the sparks turn into flames
We all be passed out
We pass out
We pass out
Don't waste your time
When the coffin's sealed with nails
We'll all be passed out
We pass out
We pass out
