

# Dissection, Frozen

Far beyond all light  
Within the black and the coldest breeze  
Caressed by the dark, I had my sleep  
Awakened by the moon  
Nocturnal life, my powers to be  
Keeping myself alive by sucking your mortals blood...

[Chorus:]

Frozen winds of immortality  
as I drown in obscurity  
Still feeling the taste of blood...  
It makes me so strong...  
I spread my wings...  
Into soul winter I fly...  
Tears in my eyes turns into fire  
as where I belong...  
The cold within, it chills my skin,  
my heart and soul...  
In ecstasy I shred myself  
to release whats held within  
In solitude Im having my pride  
I, Transylvanian son...

[Chorus:]

Frozen winds of immortality  
as I drown in obscurity  
I fall deep into whats for me unseen  
Eternal flames lick my face  
In purgatory Im all within  
But Im forever bound to my frozen soul
