

Dissection, God of Forbidden Light

HAIL LUCIFER!

Dark bringer of light

HAIL LUCIFER!

Giver of eternal sight

Wisdom bringer - We call upon thy name

Bestow upon us thy infernal blessings

Of the inner divine flame

Open our eyes Mighty Father

So that we may see

Guide our steps on the Burning Path

Of liberation and ecstasy

Titanic Prometheus - God of forbidden light

Your Black Flame we bear inside as a legacy of your might

Illumination's father - God of shadowless light

Black Sun of dark mysteries - Restore the dragon's sight

Mighty god of darkness

All salutations to thee

Your gift of knowledge and rebellion

Will set our spirits free

Lylusay Tateros Volt Sids Lucifer!

Lylusay Tateros Volt Sids Lucifer!

Open our eyes Mighty Father

So that we may see

Guide our steps on the Burning Path

Of liberation and ecstasy

Mighty god of darkness

All salutations to thee

Raise the hidden flames within us

Into chaos set us free
