

Disturbed, 10,000 Fists

Survivor

One more goddamn day when I know what I want

And my want will be considered tonight, considered tonight

Just another day when all that I want

Will mark me as a sinner tonight, I'm a sinner tonight, yeah

[Chorus]

People can no longer cover their eyes

If this disturbs you then walk away

You will remember the night you were struck by the sight of

Ten Thousand fists in the air

Power un-restrained dead on the mark

Is what we will deliver tonight, deliver tonight

Pleasure fused with pain this triumph of the soul

will make you shiver tonight, will make you shiver tonight, yeah

[Chorus]

We are the ones that will open your mind

Leave the weak and the haunted behind [4x]

[Chorus]

Ten Thousand fists in the air

Ten Thousand fists in the air
