

# Disturbed, This Moment

You will remember this moment as you dig into me  
And from your smile now it seems as if you liked it  
You better cherish this moment as you dig into me  
You'll never get another chance at this

I won't stand another minute of your questioning me  
You hear me bitch now the interrogation's over  
I can't handle the feeling of your pestering me  
How would you like to meet my favorite fist?

No you can't renege  
I love to see you beg

Dream this moment as you run away  
You would only separate me from all I believe  
This moment in brutality  
You're the one who kept on pushing till I made you bleed

It seems your pride has been stolen  
Since you stood up to me  
I'll tell you now you know I think I  
Really like it  
Some other lesson from someone that will never repeat  
How many tragic mistakes of his past

I hope you savor this moment  
As you're still on your feet  
So keep it quiet now  
I think you're gonna like it  
Words have their consequences when  
They're spoken to me  
You better be careful when you're writing checks  
Don't you question how I  
Stand above you now I

Dream this moment as you run away  
You would only separate me from what I believe  
This moment in brutality  
You're the one who kept on pushing till I made you bleed

Now you know the answers  
Save yourself from danger  
I cannot forget how  
All of this began  
I know you know the answer  
Save yourself from danger  
Beaten by a stranger  
Blood still on his hands

I'll be this moment as you run away  
You would only separate me from what I believe  
This moment in brutality  
You're the one who kept on pushing till I made you bleed
