

# Disturbed, Voices

So, are you breathing  
No, no  
Are you breathing  
So, are you breathing  
No

[x2]  
Wake up, are you alive  
Will you listen to me  
I'm gonna talk about some freaky shit now  
Someone is gonna die  
When you listen to me  
Let the living die, Let the living die  
(say)

[Chorus:]  
Are you breathing, no?  
Do the wicked see you?  
You still breathing?  
You're making me known  
Are you breathing, no?  
Do the wicked see you?  
You still breathing?

[x2]  
What's up, I wonder why  
Do you listen to me  
I'm gonna make you do some freaky shit now  
Insane, you're gonna die  
When you listen to me  
Let the living die, Let the living die  
(say)

[Chorus]

I can hear the voice  
But I don't want to listen  
Strap me down and tell me  
I'll be alright

I can feel the subliminal need  
To be one with the voice  
And make everything alright

So, are you breathing?

Can't you imagine how good going through this will make you feel  
I promise, no one will ever know  
There will be no chance of you getting caught  
They never loved you anyway  
So come on, be a man  
And do what you are compelled to do Save Me God, God [x10]

I can hear the voice But I don't want to listen  
Strap me down and tell me I'll be alright  
I can feel the subliminal need To be one with the voice  
And make everything alright  
I can hear the voice But I don't want to listen  
Strap me down and tell me I'll be alright  
I can feel the subliminal need To be one with the voice  
And make everything alright

[Chorus]

So, are you breathing? So, do you breathe no, no?  
So, are you breathing? So, do you breathe no?
