

Diva Destruction, Enslaved

Enslaved by your beauty
Enslaved by your touch
Enslaved by this feeling
that tempts me too much
So pick your poison
And choose your passion's price
Forever drowning
in these endless escapes
So let go and fly
As we let go and die
When you love the one you hate
That sadist is your soulmate
When you love the one you hate
Trapped in this torture
Used to these tears
Forever are our games
the drama's all the same
Hiding a double life
You deny your death
So let go and fly
As we let go and die
When you love the one you hate
That sadist is your soulmate
When you love the one you hate
