

# Diva Destruction, Enslaved

Enslaved by your beauty  
Enslaved by your touch  
Enslaved by this feeling  
that tempts me too much  
So pick your poison  
And choose your passion's price  
Forever drowning  
in these endless escapes  
So let go and fly  
As we let go and die  
When you love the one you hate  
That sadist is your soulmate  
When you love the one you hate  
Trapped in this torture  
Used to these tears  
Forever are our games  
the drama's all the same  
Hiding a double life  
You deny your death  
So let go and fly  
As we let go and die  
When you love the one you hate  
That sadist is your soulmate  
When you love the one you hate
