

Diva Destruction, Tempter

Here I come now calling for you
Who's the cat and who's the prey
But you know you always want me
And you know you always will
Hell has frozen and I am back
I'll tease you until you crack, tempter
Tempter, it's my turn this time, tempter
My tempter, I've learned your tricks
Tempter, my tempter who is the prey
Now? we both know it's never better
And my kiss was worth the risk
We both know we cannot stop but
When I fall, you run away, stop hiding
Behind your hate, just close your eyes
And take the bait, caught in this trap, this
Time I'm free, so free at last, caught in this
Trap, this time it's you, it's about time
