

# Divine, Missing U

[Chorus]

I ain't missing you, don't care what you do  
You're the one who left me crying sad and lonely  
I ain't missing you, what we had is through  
I ain't missing you at all  
Call me on the phone thinkin' that I'd be home  
It's as if you feel that i have no life without you  
But I got news for you baby, I'm moving on  
I ain't singing no sad song yeah, yeah

[Repeat Chorus]

I guess you never thought someone could take your place  
Love me better and kiss all the hurt you gave away  
Never been happier baby since you been gone  
I ain't singing no sad song

[Repeat Chorus]

All the things you put me through  
Couldn't be made up in a lifetime  
Had to step back and find myself  
Now I know how to love so much better

[Repeat Chorus]

You thought that when you left me  
I'd be missing you but it isn't true  
You thought that when you left me  
I'd be missing you but i isn't true
