

Divinity, Neurotyrant

Tyranny of the unconscious mind
of the mind
Signify, the demagogue will ratify
Tyrannize every conscious desire
Submissive slaves living inside us all
Feel the inferior find its resolute
Disassociate
Neurotyrant, you've seen better days
Neurotyrant, now you can see the bitter end
Psycho soars to the sun on wings of madness
Fear is blind and ignorant
Stroking purification, no mind, no matter
Ignorance is bliss
Left alone
All alone
Turn to stone
Born into oblivion
