

# Dixie Chicks, A Heart That Can

You say I've done a lot of good  
You're glad I found you when I did  
But I wonder why you keep  
Those questions in your head  
Oh I think you're afraid to fall  
Someone went and blew the call

All I can say is my heart tries hard  
Try as hard as I can  
You'll never find that my love falls short  
One day you'll understand  
That I've got a heart that can

Well I think I know by now  
I will be standin' by your side  
Takin' in account true love's never shy  
I can show you everyday  
This is not a one act play

All I can say is my heart tries hard  
Try as hard as I can  
You'll never find that my love falls short  
One day you'll understand  
That I've got a heart that can

So let me love you the best  
That I know how  
Let me move you with  
Everything that love allows

All I can say is my heart tries hard  
Try as hard as I can  
You'll never find that my love falls short  
One day you'll understand  
That I've got a heart that can
