

Dixie Chicks, I Loved The Way I Loved You

I wish there was a way that you could only see
what you could've had, could've had with me
but instead of telling you how I felt
I kept it all inside and now this what I have delt

(CHORUS)

I loved how when you smiled and your dimples would show
I loved how you would stare and no one knowed
I loved the way we danced that one night
I loved the way you held me so tight
I swear I loved everything you see

The only thing I hated was how you didnt love me

I loved how it used to be just us two

I loved the way I used to love you

And now it is too late to tell you, cause now you've got her

And now it is too late to ask you, to ask you to be with me

and now it is truly over, as over as it can be

Cause now it hurts me inside when you are holding her hand

I mean I just don't get it! I don't understand

and when you hold her tight I just wanna die

I can't look at you guys it makes me wanna cry

and you'll never know that

(CHORUS)

And every time I see you together I just wish it were us

and every time I wish I told you, I throw a big fuss

and then I brake down in tears

and fall asleep with all my fears

and it drives me crazy how I wish that you knew that

(CHORUS)

and now I still burn up with jealousy when I see you side by side

and now I still wanna hold you it's a feeling I can't hide

and now it still drives me crazy when I look up and see you two

and now I still kinda think that I am still in love with you

(chorus)

I loved the way I loved youuuu
