Dixie Chicks, So Hard

Back when we started
We didn't know how hard it was
Living on nothing
But what the wind would bring to us
Now we've got something
I can imagine fighting for
So why is fighting all that we're good at anymore

And sometimes I don't have the energy To prove everybody wrong And I try my best to be strong But you know it's so hard It's so hard

It's so hard when it doesn't come easy It's so hard when it doesn't come fast It's so hard when it doesn't come easy It's so hard

It felt like a given
Something a woman's born to do
A natural ambition
To see a reflection of me and you

And I'd feel so guilty
If that was a gift I couldn't give
And could you be happy
If life wasn't how we pictured it

And sometimes I just want to wait it out To prove everybody wrong And I need your help to move on Cause you know it's so hard It's so hard

It's so hard when it doesn't come easy It's so hard when it doesn't come fast It's so hard when it doesn't come easy So hard

I can live for the moment When all these clouds open up for me to see And show me a vision Of you and me swimming peacefully

Last night you told me That you can't remember How to feel free

It's so hard when it doesn't come easy It's so hard when it doesn't come fast It's so hard when it doesn't come easy, easy

It's so hard
