

# Dixie Chicks, Voice Inside My Head

I was only a kid  
When I said goodbye to you  
Ten summers ago  
But it feels like yesterday  
Lost, scared and alone  
Nothing I could give to you  
I tried, I really did  
But I couldn't find another way

And I want and I need  
Somehow to believe  
In the choice I made  
Am I better off this way

I can hear the voice inside my head  
Saying you should be with me instead  
Every time I'm feeling down, I wonder  
What would it be like with you around

So I, I made my way  
Cold and roaming in the wild  
I'm forever changed  
By someone I never knew  
Now I've, I've got a place  
I've got a husband and a child  
But I'll never forget  
What I've given up in you

And I want, I need  
Somehow to believe  
In the choice I made  
Am I better off this way

I can hear the voice inside my head  
Saying you should be with me instead  
Every time I'm feeling down, I wonder  
What would it be like with you around

And I want, I need  
Somehow to believe  
In the choice I made  
Am I better off this way
