

Dizmas, Controversy

He's in a city not too far away
And many go to see him
Confess! Confess, my people cry
But they do not see the still frame in my mind

And I know, I know He loves me still
And I know, I know he loves me
But I can see the controversy
I can see the controversy

I can see the controversy! I can see it in this
I can see the controversy! I can see it in this

And I will decrease so you can increase

Yeah, let's get this started
I've got a message inside me
And I cannot withhold it
I plead and cry, these people die
And they still do not see the spear in his side

I would wish that you could see me
in this controversy
