

# Dizze Rascal, Hardback (Industry)

[Hook:]

Hard back, stern face  
Play your position and know your place  
Only move when the money's calling  
Take my advice, you'll be balling  
You need a hard back, stern face  
Play your position and know your place  
Only move when the money's calling  
Take my advice, you'll be balling

[Verse 1:]

First up it's important that you keep your shit original  
Try and keep that copycat shit to a minimal  
People want something that they never heard before  
If it's been done, leave it, they don't wanna hear no more  
Secondly here's another clever thing that you can do  
Find yourself a good manager who's really got a clue  
Cause there're so many to choose from, they all look the part  
But it's difficult to come across the ones that's really smart  
And can stand firm and steady when the label's talking shit  
Well-respected, keeps it gangsta, but does everything legit  
And dependable, you can trust to handle your biz  
And can really make sure of what the situation is  
Next up, find a record label that ain't full of pricks  
One that lets you breathe artistically but makes you come with hits  
Congratulations, now you got your a deal, you're set to go  
Let me fill you in just a couple of things you need to know

[Hook x2]

[Verse 2:]

Next up, change your number, change your phone and change your chip  
Cause there's gonna be a lot of people ringing talking shit  
Whether bredrens wanting money, cause now suddenly you're rich  
Or some dumb hating fassies trying to take you for a bitch  
Yeah I know it's minor now and you can handle it, it's nothing  
But eventually you're really gonna wanna do something  
And that's counter-productive, beefin over bullshit  
You can never stop them dumb-bredrens tryin to pull shit  
Plus you're in the limelight well-paid verbalist  
Which leads me on to my next subject - journalists  
These are the people that can put your name about  
So be careful what you're saying when you're talking out your mouth  
Aand avoid being ignorant, tone down the thug shit  
Come to interviews buzzin, tone down the drug shit  
Keep your eye on the ball, mind on the drop  
And before you know you had the whole world on your knob

[Hook x2]

[Verse 3:]

Here's something that I should've stressed early on  
Don't go spending all your money till it's gone  
Cause the tax man's gonna want his paper when it's due  
And there's nobody above the tax man, especially you  
And another thing, buy a house before you buy a car  
Don't tell no one where you are, even better if you're far  
Everybody knows you're a gangsta and that Porsche looks great  
But do you really want it sitting on that council estate  
Differently watch where you choose to socialize  
Keep an eye out for trouble, watch for devils in disguise  
And please don't be fooled by no pretty females  
Play it safe, never let them know your full details  
I ain't saying be para', I'm just saying be sure  
You can never know if that bitch would brag you what she saw  
And aside from makin money keep lovin what you do  
I aint saying nothin what cause the rest is up to you

[Hook x2]

Yeah, you done know

Just a little guideline there for all my real man dem from the roads  
trying to get into this music ting, yeah  
Big shout out to my bredrin DJ Semtex
