

Dj alien, The fight

Black nights I see the shadows light
Can't fight in my mind
Remember when you made me hide
And I was broken deep inside
Imprisoned by your jealous heart
But now the walls you built will fall
Before today I would of cry
But I said myself not tonight
Because the darkside is with me
Because tonight I'm breaking free
Black nights I see the shadows light
Can't fight in my mind
Remember when you made me hide
And I was broken deep inside
Imprisoned by your jealous heart
But now the walls you built will fall
Before today I would of cry
But I said myself not tonight
Because the darkside is with me
Because tonight I'm breaking free
Before today I would of cry
But I said myself not tonight
Because the darkside is with me
Because tonight I'm breaking free
Because tonight I'm breaking free
Because tonight I'm breaking free
breaking free
